MECHANICAL PERMIT APPLICATION INSTRUCTIONS (Page 1 of 2)

Welcome to the Yarrow Point mechanical permit process. Property owners must obtain mechanical permits to document that the installation or replacement of mechanical equipment proposed for their property complies with any and all provisions of the laws, ordinances, and codes in effect at the time the application is filed with the Town. To obtain a mechanical permit for your proposed project, please complete the following steps:

1. **DETERMINE IF YOUR PERMIT CAN BE ISSUED OVER THE COUNTER OR IF IT REQUIRES A PLAN REVIEW.** Most mechanical permits for the installation, replacement, or repair of mechanical appliances (e.g. water heaters, furnaces, central air conditioning, etc.) in new or existing residences are issued over the counter. On occasion, the Building Official may require a plan review for systems that are complex or unusual so that he/she can verify that the proposed system complies with the International Mechanical Code, the Washington State Energy Code, and other state and local regulations.
2. **DETERMINE WHICH PERMITS YOU WILL NEED.** The Town issues building, fire sprinkler, mechanical, plumbing, demolition, substantial development permits, right of way use and encroachment permits and site development permits. The Washington State Department of Labor and Industries issues electrical permits.
3. **DETERMINE WHICH OF THE FOLLOWING DOCUMENTS MUST BE SUBMITTED** for your project.

A. **APPLICATION FORM AND CHECKLIST:** You must complete an Application for Plan Review and Permit and a Mechanical Permit Checklist for any project involving the installation and/or replacement of mechanical equipment. Please complete the form by providing all information requested, answering all questions accurately and signing the application.

B. **PERMIT FEE:** When submitting your Application for Plan Review and Permit, you must pay a mechanical permit fee. The permit fee for mechanical permits issued over the counter is based on the number and type of mechanical units to be installed as outlined on the Mechanical Permit Application Checklist.

C. **PLANS AND SPECIFICATIONS:** If a plan review is required, you must provide **TWO** copies of plans and specifications as follows:

- **FLOOR PLANS** showing the existing floor configurations and the proposed installation of mechanical equipment for each floor.
- **OTHER SPECIFICATIONS, CALCULATIONS, REPORTS, AND INFORMATION** available to you at the time the application is submitted.

D. Additional **APPLICATION FORMS.** You must submit separate application forms for all other permits needed, including building, fire sprinkler, demolition, substantial development, etc.

4. **REVIEW THE TOWN'S RESTRICTIONS ON CONTRACTOR PARKING.** Contractors must comply with the parking regulations of the Town at all times. If your contractor needs temporary relief from these restrictions, he/she must file a parking plan with the Town. The building official will review the plan and forward a copy of it to the Clyde Hill Police Department.
5. If no plan review is required, **SUBMIT ONE COPY OF THE COMPLETED APPLICATION AND CHECKLIST** to the Town Clerk with your permit fee. When filed with the Town Clerk, items 3A through D (as needed) constitute a complete application. The application must be complete in every respect, i.e. all questions answered, forms signed, and fees paid, before the Town Clerk can accept it. After accepting your application and collecting the permit fees, the Town Clerk will issue your mechanical permit, if no plan review is required. Fees must be paid before the Town Clerk can issue your permit.

6. If your project requires a plan review, **SUBMIT TWO COPIES OF THE PLANS AND COMPLETED APPLICATION AND CHECKLIST** to the Town Clerk. When filed with the Town Clerk, items 3A through 3D (as needed) constitute a complete Application for Plan Review and Permit. The application must be complete in every respect, i.e. all questions answered, forms signed, and fees paid, before the Town Clerk can accept it. After accepting your application and fees, the Town Clerk will process your application and forward the application documents to the Town Building Official for his/her review and approval. If additional information is needed, please provide it as quickly as possible to avoid delays in the review of your application. When the plan review is complete, the Town Clerk will notify you that your permit is ready to be picked up at Town Hall.
7. **POST THE PERMIT IN A CONSPICUOUS PLACE AT THE PROJECT SITE** at all times. If your project needed a plan review, keep the set of application documents, including all plans, available on the jobsite at all times.
8. If any changes are made to your project after the permit is issued, **CONTACT THE TOWN BUILDING OFFICIAL** to determine whether a new application should be submitted.
9. When the installation of mechanical equipment is complete, **CONTACT THE BUILDING OFFICIAL DIRECTLY TO SCHEDULE AN INSPECTION**. A portion of the fees you paid is set aside to pay for the usual cost of these inspections. Once scheduled, inspections are charged to a project, unless you reschedule the inspection with the Building Official 24 hours in advance. If the total cost of your project's inspections exceed the mechanical permit fees paid, the Town will bill you for the excess inspection costs.
10. If the Building Official finds something to be corrected as a result of an inspection, he/she will need to re-inspect the corrections when completed. **CONTACT THE BUILDING OFFICIAL DIRECTLY TO SCHEDULE THIS RE-INSPECTION**. Some of the conditions under which a re-inspection may be needed include but are not limited to:
 - Permit or permit documents not posted or not available on the jobsite.
 - Work to be inspected not complete enough to perform inspection.
 - Access to project not provided on the scheduled date and/or time of inspection.
 - Construction performed without a valid permit.
 - Construction performed that deviates from the approved permit documents.
11. As the property owner and permit holder, **IT IS YOUR RESPONSIBILITY TO INFORM ALL CONTRACTORS AND WORKERS OF CONSTRUCTION REQUIREMENTS AND TO ENSURE THEIR COMPLIANCE**. Permits are issued on the condition of compliance with any and all provisions of the regulations in effect at the time the permit application was filed with the Town Clerk. Permits issued in error or on the basis of incomplete, incorrect, or inaccurate information may be suspended or revoked. Upon inspection, work found to be constructed in violation may be ordered removed and/or brought into compliance at any time an official of the Town becomes aware of the violation.
12. As the property owner and permit holder, **IT IS YOUR RESPONSIBILITY TO RETAIN COPIES OF ALL PERMIT DOCUMENTS**, including the application and supporting plans and documents, the permit card with inspection record, and any other paperwork or information that documents the type of work performed and its permitted status. The Town retains copies of this information after the completion of your project; however, after six months there is no guarantee that the Town will still have documentation from your project available.

MECHANICAL PERMIT APPLICATION CHECKLIST (Page 1 of 2)

This checklist is an important part of your permit application; please complete it accurately. Submitting an incomplete application may delay the issue of your permit. The checklist is used to help you and the Town determine whether your project complies with the Municipal Code prior to permit issuance, and to determine applicable fees. Please note that **Installation of Mechanical Equipment is not allowed in setback areas.**

Please describe the nature of the proposed project:

1. Is this project part of a larger project requiring other permits? If so, please list the other permits for which you have applied or will be applying, including permit numbers and issue dates, when applicable. o yes o no

2. Will the proposed installation include engineered equipment or design that is unique to the project? (If so, a plan review may be required.) o yes o no

3. Using the following schedule, calculate the permit fee due upon application for an over the counter mechanical permit:

Permit Administration	\$25.00	\$ _____
Technology Fee	\$5.00	\$ _____
Heat Pump or Air Conditioning Unit	\$87.50	\$ _____
Exhaust Fan or Appliance Vent	\$12.50 <i>per unit</i>	\$ _____
Gravity Type or HVAC System	\$87.50	\$ _____
Recirc. Hot Water Heating Syst. Incl. Hydronic Syst., Boilers	\$87.50	\$ _____
Hot Water Tank	\$87.50	\$ _____
Single Unit or System with Input in Excess of 150,000 BTU	<i>Based on Valuation</i>	\$ _____
Solar Heating Panels	<i>Based on Valuation</i>	\$ _____
Geothermal System	<i>Based on Valuation</i>	\$ _____
Any Item Not Listed	\$87.50	\$ _____
TOTAL FEE		\$ _____

I certify under penalty of perjury that I am the owner or the duly authorized agent of the owner of the property for which this permit application is made and that all information furnished in support of this application is true and correct.

HOLD HARMLESS AGREEMENT:

I certify that I or my authorized agent have reviewed and do understand all Federal, State, County, and Town of Yarrow Point laws, codes, regulations, and requirements pertinent and applicable to construction of the proposed project and that the project described in the permit application documents complies with these laws, regulations, codes, and requirements in all particulars.

MECHANICAL PERMIT APPLICATION CHECKLIST (Page 2 of 2)

I hereby agree as a condition of permit issue to hold harmless the Town of Yarrow Point, its officers, agents, and employees and to indemnify them from all liability, loss, and expense, including reasonable attorney's fees, that the Town, its officers, agents, or employees may incur by reason of the issue of such permit and all other acts taken by the Town of Yarrow Point relating to the work described under the permit documents, including but not limited to plans examination, issue of permit(s), inspections, and approval of construction and issuance of certificates of occupancy.
