

HOT SHEET

APPROVED 3/10/2020 1:30 PM

My family member passed away from COVID-19 (or was a patient at LifeCare). What restrictions are in place for a funeral?

Funeral attendees are not at risk for contracting COVID-19 from the decedent from open casket or other non-contact funeral ceremonies.

Due to the current outbreak, families should consider postponing large funeral or memorial gatherings to avoid bring people into close contact, especially if people who are in high risk groups might attend.
